- watching and going to NRL games

ENROLLED NURSE

CASS

Compassionate care grounded in experience, dignity, and genuine connection.

ABOUT ME

I am a compassionate Enrolled Nurse and Support Worker with nearly 20 years of experience in the care industry. Initially starting in aged care as a Chef and Lifestyle Coordinator, I developed a passion for enhancing the quality of life for older adults. After a family health crisis in 2020, I pursued nursing to make a greater impact. Working as a Community Support Worker, I discovered my love for one-on-one support and building relationships. With my Diploma of Nursing, I focused on community-based care, providing personalised support and connections. I believe in treating everyone with dignity and respect, helping them achieve their goals and live independently.

EXPERIENCE

- Enrolled Nurse 2021- Present
